power of prayer - let god be true - conclusion: 1. if you are convicted that you have neglected prayer, then begin tonight to pray more earnestly. 2. if you do not know how to pray effectually, in a way that is heard, than seek more information. **power supplies filter capacitor - kennethkuhn** - power supplies -filter capacitor 7 capacitor sizing the following equations provide the approximate capacitance required to achieve a given ripple percentage. these equations are generally good for ripple percentages less than 10 **ch. 7 mosfet technology scaling, leakage current, and ...** - 7.2 subthreshold current--- "off" is not totally "off" circuit speed improves with increasing i_{on} , therefore it would be desirable to use a small v_{tn} we set v_t at an arbitrarily small value, say 10mv? the answer is no. at v_{gs}
